

V3 STEEL TRAY

From \$5,540 + GST

Our Bronco V3 Tray is the entry-level tray in the Bronco family. Offering many features that you can also find on our V4 & V5 trays, the V3 is a great option for those that are after a quality tray at a lower price than our other variations.

*Additional costs may include: freight, longer tray sizes, premium powder coat colours, 2-pack painted finishes, remounting of sensors/camera, removal of "tub" & more.

Highlighted Features

- LED taillights
- 3mm Checkerplate floor
- Internal tie-down points
- Double powder-coated finish

CANOPY SIZES & STYLES	FAQS	
<p>Dual cab</p> <ul style="list-style-type: none"> • 1805mm L x 1900mm W <p>Single cab</p> <ul style="list-style-type: none"> • 2455mm L x 1900mm W <p>Extended dual cab/Extra cab</p> <ul style="list-style-type: none"> • 2105mm L x 1900mm W 	<p>Can the canopies be made to a custom length? No, we have a number of standard sizes and lengths that suit most factory vehicles.</p> <p>Can a Bronco Built canopy go onto a non-Bronco tray? The 355 and 385 have a "sequential" indicator, it races from the inside to outside like some European cars. This sequential light won't work on all vehicles. It is known not to work on the Amarok, RAM, and Older BT50 (2012-2020). Only Maxilamp lights can be fitted on these models.</p> <p>Do the over-centre latches easily jam? No, Bronco latches do not jam or get stuck, an occurrence which is common on this type of latch when a powder coated finish is applied.</p> <p>Can my tray be shipped for me? Yes, we can ship your tray or canopy to any one of our fitting agents across the country.</p> <p>Notes: some dealerships are also able to fit our trays, we can ship to these locations too.</p>
